Nebraska Air National Guard Flyover

New Information - A KC-135R Stratotanker from the 155th Air Refueling Wing in Lincoln will fly over 15 hospitals from Scottsbluff to Omaha on Wednesday. The flyover will begin at Regional West Medical Center in Scottsbluff at 11:32 a.m. MDT, give or take ten minutes. The four-engine aerial refueling tanker will fly over at an altitude of 1,000 to 1,500 feet at just over 200 mph. It should be easily visible from the ground. "This is our special way of honoring our health care professionals and neighbors for how they have responded and come together as Nebraskans during these unprecedented times," Maj. Gen. Daryl Bohac, the Nebraska National Guard's adjutant general, said in a press release.

COVID Deaths at 100 in Nebraska

In Nebraska, COVID deaths reached the century mark on Monday, May 11th. The disease still kills mainly those with underlying medical conditions and/or the elderly. Out of the 100 cases, 85 are confirmed to be above the age of 60. Of the rest, authorities have not yet released the ages of seven of them. Hall County has the highest number of deaths at 35, followed by Douglas County at 23 deaths. Out of the 75 cases in the Panhandle, there have been no deaths due to COVID and only nine persons hospitalized. Forty-four have recovered, meaning that there are only 31 active COVID cases in the Panhandle.

Youth Baseball and Softball Guidelines

The Governor announced on Monday that beginning June 1st, Youth Baseball and Softball can resume under very stringent conditions. At this time, baseball and softball are the only sports being allowed. Additional guidelines for other sports will be provided as it is determined participation in those sports meet health and safety measures. Violation of these rules may mean a team is prohibited from practicing or playing games for the entire summer.

On June 1st, Schools are permitted to open weight rooms for use by all student athletes as long as they follow the same guidelines as fitness centers/clubs, gymnasiums, health clubs, and health spas. Team Organized practices for baseball and softball may begin unless circumstances dictate a change in date. Dugout use will not be allowed. Players' items should be lined up against the fence at least six (6) feet apart. Parents must remain in their cars or drop off and pick players up afterwards. Players should use their own gloves, helmets, and bats as much as possible. Coaches are responsible for ensuring social distancing is maintained between players as much as possible. This means additional spacing between players while playing catch, changing drills so that players remain spaced out, no congregating of players while waiting to bat. Players must bring their own water/beverage to consume during and after practice. No shared drinking fountains or coolers. Players must bring their own snacks to consume during and after practice. No shared/communal snacks. Coaches must sanitize shared equipment before and after each practice.

On June 18th, Baseball and softball games may begin unless circumstances dictate a change in date. The same guidelines apply as above for baseball and softball practices. Use of dugouts is permitted during games only. Bleachers located between the dugout and home plate should also be used to spread out players. Players should have designated spots to place their personal items. Coaches must designate an adult who is responsible for ensuring players are seated on the benches unless they are actively participating in the game. Players should use their own gloves, helmets, and bats as much as possible. Fan attendance is limited to household members of the players on the team. No use of bleachers for fans. Fans must bring their own chairs or stand. Fans should keep six (6) feet of social distancing between different household units. No fan seating or standing is allowed in the area from behind home plate to

six (6) feet past the far end of each dugout. Teams to play next must be provided designated areas for player warm-ups that provide for necessary social distancing. Post-game handshakes or interaction between teams are prohibited. When games end, the leaving team must sanitize the dugout area. No post-game talks at the field are permitted. Fans and players must leave the playing area and return to their cars immediately after the game. The team to play next must remain in their designated warm up area until the prior team has finished sanitizing and is completely out of the dugout. Fans for upcoming games must remain in their cars during player warm ups. They will be permitted to come to the field once the team they are there to watch enters the dugout area. Restrooms must be cleaned and sanitized regularly while players and fans are present. Markings should be placed on the ground to ensure individuals waiting to use the restroom are spaced six (6) feet apart. Players must bring their own water/beverage to consume during and after practices and games. No shared drinking fountains or coolers. Players must bring their own snacks to consume during and after practice/games. No shared/communal snacks. Coaches must sanitize shared equipment before and after each practice and game. Concessions stands are not allowed to be open.

Share with Region 22 Neighbors

***New Information** – As each county, city and village work on plans to return to normal operations, please share your plans, ideas and questions with all other municipalities in Region 22. If you share these with me, I will make sure they are shared with the other entities. Last week, I shared a list of suggestions for reopening. I would like this report to be a way to share the reopening plans for Region 22 entities with each other. You may email any plans, suggestions, ideas or questions to tnewman@scottsbluff.org. Even incomplete thoughts or plans can be helpful. This is a very unique situation and nobody can be expected to have all the answers. If all entities share what they have with each other, this can help build a clearer picture for each other and help everyone develop a better plan.*
