***Scottsbluff Monument Valley Pathway North
Project Number ENH-79(42); Control Number 51512***

Dear Citizen:

By way of this mail, the City of Scottsbluff (the City) is providing an update to the 2013 outreach and public information meeting regarding the Scottsbluff Monument Valley Pathway North Project. This project includes a 5.8 mile concrete trail that begins at the existing Monument Valley Pathway Trail within Riverside Park, and extends north to 37th Street (south of the Regional West Medical Center) and east to Western Nebraska Community College and the nearby business complex. The project is currently in the final design stage and construction is scheduled to begin in the spring of 2020. Total cost for the project is estimated at \$5.2 million and funding would come from federal and local sources.

During pedestrian bridge construction, U.S. Highway 26 (US-26) would be closed overnight for one night. Drivers would be detoured on Avenue B, 27th Street, and 5th Avenue. New right-of-way and temporary easements on private property would be required to build this project. Access to adjacent properties would be maintained during construction, but may be limited at times due to phasing requirements. Impacts to wetlands are anticipated however, no mitigation would be required.

Information about the Scottsbluff Monument Valley Pathway North Project can be found on the City's website at www.scottsbluff.org. For those without internet access, information can be requested from our office 2525 Circle Drive, Scottsbluff, NE 69361.

We understand that construction may cause temporary inconvenience and hardships, but we are confident that the finished project will improve both transportation mobility and recreation in our City. With your help, we can achieve this goal.

Sincerely,

A handwritten signature in blue ink, appearing to read "N. Johnson", is written over a light blue horizontal line.

Nathan Johnson
City Manager
